

SAFETY DATA SHEET

Section 1: IDENTIFICATION OF MATERIAL & SUPPLIER

Supplier: Direct Source Australia Pty Ltd (ABN: 54 126 430 840)
Supplier Contact Details: 4 Leanne Crescent, Lawnton Qld 4501
Ph. 61 7 3205 4714 Fax. 61 7 3205 2578
sales@directsourceaus.com.au

Product Name **Enviro Gold Truck & Machinery Wash**

Other Names: None Allocated
Recommended Use: Truck wash
Package sizes: 5L 20L

Emergency Telephone Number: Poisons Information Centre (National) 13 11 26

Section 2: HAZARD IDENTIFICATION

GHS classification of the substance/mixture	Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition) Eye Damage/Irritation: Category 2A.
Signal Word (s)	WARNING
Hazard Statement (s)	Causes serious eye irritation.
Pictogram (s)	Exclamation mark 
Precautionary statement – Prevention	Wash contaminated skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Precautionary statement – Response	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Section 3: COMPOSITION INFORMATION ON INGREDIENTS

Ingredient	CAS No	Proportion
Sodium dodecylbenzene sulfonate	25155-30-0	0 -10%
Ingredients determined to be non-hazardous at the formulation concentration		to 100%

Section 4: FIRST AID MEASURES

First Aid Measures	For advice, contact a Poisons Information Centre (Phone Australia 131136, New Zealand 0800764766) or a doctor.
Inhalation (Breathing)	Remove victim from area of exposure if safe to do so. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume a comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if symptoms persist.
Ingestion (Swallowing)	Do NOT induce vomiting. Wash mouth out with water. Give water to drink. Seek medical advice.
Skin (Contact)	If skin or hair contact occurs, remove any contaminated clothing and wash skin and hair thoroughly with running water. If irritation occurs seek medical assistance.
Eye contact	Hold eyelids open and irrigate continuously with water for 15 minutes. Seek medical advice.
Advice to Doctor	Treat Symptomatically. Show this SDS to the medical practitioner.

Section 5: FIREFIGHTING MEASURE

Suitable Extinguishing Media	Non combustible. Use extinguishing media suitable to surrounding conditions.
Hazards from Combustion Products	Avoid contamination with oxidising agents i.e. nitrates, oxidising acids, chlorine bleaches etc as ignition may result. Decomposes on heating and may produce toxic fumes of carbon dioxide, nitrogen oxides and other pyrolysis products typical of burning organic material.
Specific Methods	Keep containers cool with water spray. Fire fighters to wear self contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

Section 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedures	Wear protective equipment to prevent skin and eye contact. Avoid breathing in vapours. Contain – prevent run off into drains and waterways. If contamination of sewers or waterways has occurred advise local emergency services.
Spills & Disposal	Collect and seal in properly labelled containers for disposal. Contain spills with inert absorbent material (e.g. sand, earth). Transfer liquids and used absorbent material to separate suitable containers for recovery or disposal.

Section 7: HANDLING AND STORAGE

Precautions for Safe Handling	Avoid skin and eye contact and breathing in vapour. Do not allow clothing wet with material to stay in contact with skin.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry, well ventilated place and out of direct sunlight. Store away from incompatible materials described in Section 10. Keep containers closed when not in use – check regularly for leaks or build up of pressure. Avoid reactions with oxidising agents, strong acids & strong alkalis.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational exposure limit values	No value assigned for this specific material by Safe Work Australia
Appropriate Engineering Controls	Use in well ventilated areas. If inhalation risk exists; use with local exhaust ventilation or while wearing an approved respirator. Keep containers closed when not in use.
Personal Protective Equipment	Overalls, Safety Shoes, Safety Glasses, Gloves Wear overalls, safety glasses and gloves. Use with adequate ventilation. If inhalation risk exists wear organic vapour/particulate respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated and other protective equipment before storage or reuse.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Blue liquid
Odour	Slight
Boiling Point	103°C
Solubility in Water	Miscible
Specific Gravity	1.06-1.08
pH	7.0-8.0
Volatile Component	<75%
Flash Point	none

Section 10: STABILITY AND REACTIVITY

Chemical Stability	Product considered stable under normal conditions of use.
Incompatible materials	Avoid strong oxidising agents.

Section 11: TOXICOLOGICAL INFORMATION

Ingestion	Swallowing can result in nausea, vomiting, diarrhoea and abdominal pain.
Inhalation	May cause respiratory tract irritation.
Skin	Repeated or prolonged skin contact may lead to allergic contact dermatitis.
Eye	May be an eye irritant.

Health Hazard No acute health effects expected if the product is handled in accordance with instructions provided by the manufacturer.

Chronic Effects Repeated or prolonged skin contact may cause dryness, de-fatting of skin and dermatitis.

Section 12: ECOLOGICAL INFORMATION

Ecotoxicity No data is available on the product itself.

Section 13: DISPOSAL CONSIDERATIONS

Disposal method Refer to Waste Management Authority. Dispose of material through a licensed waste contractor.

Section 14: TRANSPORT INFORMATION

Store away from oxidising agents.

Store in a cool, dry place.

Not classified as a Dangerous Good according to the Australian Code for the Transportation of Dangerous Goods by Road and Rail.

UN Number None allocated

Transport hazard class(es) None allocated

Section 15: REGULATORY INFORMATION

Poisons Schedule (SUSDP) Not Scheduled

Australia (AICS) All ingredients are listed on the Australian Inventory of Chemical Substances. (AICS)

Section 16: OTHER INFORMATION

Contact Details:	Poisons Information Centre	13 11 26

DO NOT MIX WITH OTHER CHEMICALS WITHOUT PRIOR CONSULTATION WITH THE MANUFACTURER.
Always use product as directed. Never return any unused material to original drum.

This document is based on information concerning the product which has been provided by the manufacturer or obtained from third party sources and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue. Further clarification regarding any aspect of the product should be obtained directly from the manufacturer. While we have taken all due care to include accurate and up-to-date information in this SDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, Direct Source Australia Pty Ltd accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this SDS.

The recommendation for protective equipment contained within this SDS is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a SDS which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.
